

Micrium provides high quality, royalty-free software for the embedded market. We maintain the highest level of programming standards resulting in software with clean room design and a small footprint. We offer an entire suite of middleware software to suit all our customers' needs. Our products are easily portable to work with your 8, 16, 32, and 64 bit microprocessors, microcontrollers, and DSPs.

2006 Price List

Real-Time Operating System (RTOS)		Certifiable for Safety Critical Systems Scalable ROMable Preemptive Multitasking
TCP-IP Protocol Stack		Cleanest source code in the industry Scalable/works with any RTOS ANSI C Source Code
Modbus Stack		Multiple channels ASCII and RTU Master/Slave RS-232 and/or RS-485
Universal Serial Bus		Bulk Device Stack Mass Storage Class Device USB 1.1/2.0 PC Driver included
File System		MS-DOS (FAT)/Windows Compatible "FAT Free" version available Works with any RTOS Multiple media support
Graphical User Interface		CPU & LCD Independent B&W, Grayscale, & Color Large selection of LCD Drivers
Flash Loader		Interfaces via RS-232 port CRC-check implemented Configurable – Optional Password
Building Blocks		µC/CIK µC/LCD

Definitions		Description				
Single Product License	Valid to be used in one end-product, any number of units, for the life of the product. Includes free updates, phone and e-mail support for 90 days.					
Product Line License	Valid for any number of end-products within a 'product line', any number of units, for the life of the end-products in the product line. Examples of end-product lines are: Standard TVs, HDTVs, VCRs, DVD Players, Network Switches, Network Routers, etc. Includes free updates, phone and e-mail support for one year for two users.					
Per CPU-Type License	Valid for any number of end-products using a single processor type (e.g 68HC12, 683xx, ARM7, 80x86 etc.), for any number of units, for life. Includes free updates, phone and e-mail support for one year for two users.					
Site License	Any end-products, any number of units designed or manufactured from one site, for life. A site is a physical location: a building or series of related buildings within a 2 miles radius. Includes free updates, phone and e-mail support for one year for three users.					
Products	Description	Single Product	Product Line	Per CPU-Type	Site	Per Seat
μC/OS-II, The real-Time Kernel	μC/OS-II RTOS able to manage up to 63 application tasks.	\$ 2,750.00	\$ 16,500.00	\$ 22,000.00	Call	
μC/OS-View	μC/OS-View is a combination of a Microsoft Windows application program and code that resides in your target system (i.e. your product). The Windows application connects with your system via an RS-232C serial port. The Windows application allows you to 'View' the status of your tasks which are managed by μC/OS-II.					\$ 495.00
μC/OS-II Kernel Awareness plug-in	μC/OS-II Kernel Awareness Plug-In allows you to display μC/OS-II's internal data structures in a convenient series of Windows integrated with many debuggers. This provides you with information about each of the active tasks in the target application, about each semaphore, mutex, mailbox, queue and event flag group along with a list of all the tasks waiting on these kernel objects, and more.					\$550.00
Maintenance and Support	Description	Single Product	Product Line	Per CPU-Type	Site	Per Seat
μC/OS-II, The real-Time Kernel	One year extended support and update period (can only be purchased from customers with a valid support agreement)	\$ 550.00	\$ 3,300.00	\$ 4,400.00	Call	
μC/OS-View	One year extended support and update period (can only be purchased from customers with a valid support agreement)					\$ 100.00
μC/OS-II Kernel Awareness plug-in	One year extended support and update period (can only be purchased from customers with a valid support agreement)					\$ 100.00

LCD6642X	Hitachi HD66420 Hitachi HD66421
LCD667XX	Hitachi HD66766 Hitachi HD66772
LCD66750	Hitachi HD66750
Custom	Will develop a driver for your hardware. Sample required.

Optional modules	item	Description	Single Product	Product Line	Per CPU-Type	Site
Window Manager	Widgets/Dialogs	Windows manager for uC/GUI and Widgets/Dialogs such as: Progressbar, Button, Frame window, Edit box (*2)	\$ 3,100.00	\$ 15,500.00	\$ 20,150.00	Call
Multi Layer		Support for multiple display	\$ 1,850.00	\$ 9,250.00	\$ 12,025.00	Call
Memory devices		Memory devices for flicker-free animation (*2)	\$ 1,225.00	\$ 6,125.00	\$ 7,962.50	Call
Antialiasing		Antialiasing smoothes curves and diagonal lines (*2)	\$ 2,500.00	\$ 12,500.00	\$ 16,250.00	Call
VNC		VNC Server	\$ 1,850.00	\$ 9,250.00	\$ 12,025.00	Call
Win32 Simulation		uC/GUI simulation Source code license	\$ 2,295.00	\$ 11,475.00	N/A	Call
Development tools		Description	Price [US \$]			
Bitmap Converter (extra seat)		Converts Bitmap files (BMP) into uc/GUI compatible ANSI "C"-files (*5)	\$ 875.00			
Viewer (extra seat)		uC/GUIView (*5)	\$ 875.00			
Font Converter		Converts any Windows font (True type, Type1 or Raster) into uC/GUI ANSI "C"-format (*4)	\$ 2,750.00

μC/FL Price List 2006

(Prices are subject to changes without notice)

Definitions	Description				
Single executable license	μC/FL is considered a development tool. It has an executable license and may only be installed on PCs within the same site. A site is a physical location: a building or series of related buildings within a 2 miles radius.				
Products	Description				Site
μC/FL, Windows (Object)	Object code Windows application and Bootloader source code.				\$ 2,475.00
μC/UPDATER	Source code Windows application.				\$1,250.00
Maintenance	Description				Site
μC/FL, Windows (Object)	One year extended support and update period (can only be purchased from customers with a valid support agreement)				\$ 495.00
μC/UPDATER	One year extended support and update period (can only be purchased from customers with a valid support agreement)				\$ 250.00

Definitions		Description		
Single Product License	Valid to be used in one end-product, any number of units, for the life of the product. Includes free updates, phone and e-mail support for 90 days.			
Product Line License	Valid for any number of end-products within a 'product line', any number of units, for the life of the end-products in the product line. Examples of end-product lines are: Standard TVs, HDTVs, VCRs, DVD Players, Network Switches, Network Routers, etc. Includes free updates, phone and e-mail support for one year for two users.			
Per CPU-Type License	Valid for any number of end-products using a single processor type (e.g 68HC12, 683xx, ARM7, 80x86 etc.), for any number of units, for life. Includes free updates, phone and e-mail support for one year for two users.			
Site License	Any end-products, any number of units designed or manufactured from one site, for life. A site is a physical location: a building or series of related buildings within a 2 miles radius. Includes free updates, phone and e-mail support for one year for three users.			
Products	Description	Single Product	Product Line	Per CPU-Type
µC/CLK	µC/Clk is a module that implements a Year 2000 compliant clock/calendar. Your application can obtain 'timestamps' in three formats: µC/Clk, UNIX, NTP. µC/Clk can work with µC/SNTPc and thus obtain the current time from a Network Time Server.	\$ 495.00	\$ 2,970.00	\$ 3,960.00
µC/LCD	µC/LCD allows your application to easily interface to LCD character modules based on the HC44780 controller and supports modules from 1x16 to 2x40 characters. µC/LCD allows you to display text, bar-graphs and custom characters.	\$ 495.00	\$ 2,970.00	\$ 3,960.00
Maintenance and Support	Description	Single Product	Product Line	Per CPU-Type
µC/CLK	One year extended support and update period (can only be purchased from customers with a valid support agreement)	\$ 99.00	\$ 594.00	\$ 792.00
µC/LCD	One year extended support and update period (can only be purchased from customers with a valid support agreement)	\$ 99.00	\$ 594.00	\$ 792.00
